AN INTRODUCTION

THE SWITCH STORY

Switch is an official distributor and retailer of Smart Touch and Switchbee home automation systems. We are a leading company in the automation industry, making smart homes more accessible and affordable than ever.

The concept of smart homes is not new, nonetheless, why is it not more common? Specifically in the age of smart cities, the internet of things, big data and inter-connectivity a smart home should be much more accessible.

After years of research, the Switch team realized that the main barriers for consumers to enter the home automation market are absurdly high costs, no practical way to retrofit, and the amount of time that it takes to install.

INNOVATION

To overcome these constraints, our partners developed a unique solution. The patent protected technology can be embedded quickly, and simply directly into any light switch or plug socket. Convert any light switch into a smart switch, in less than two minutes, turning a typical home into a smart home. Avoiding messy rewiring makes your changes simple and easy.

Switch innovation goes beyond just lights and switches. You can now control your entire home remotely through our secure app dashboard.

OUR VISION

Here at Switch our clear vision puts you at the heart of smarter living. We want to change the world by creating a fully flexible, intuitive and affordable smart home solution. Part of this vision is to insure continual electrical supply.

In our vision of the future, people will take complete control of their home's switches and appliances with a single touch of their smartphone and wearable devices. The affordable smart home is now in reach and Switch is committed to delivering its unique solution to homes all over the world.

SMART SOLUTIONS

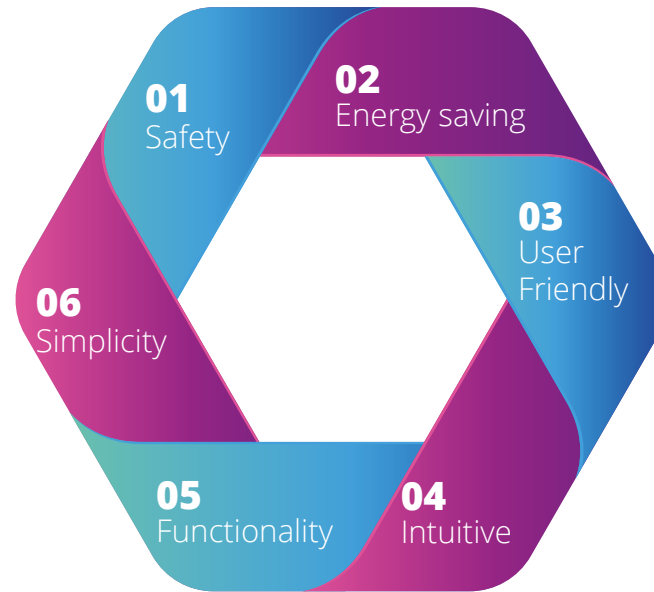

THE HUB OF SMART HOMES

The Switch platform is the hub of the smart home.

Our mission has led us to seamlessly connect wall switches and devices with a communications hub for complete control and personalisation. All this is done via a smartphone or tablet. Simple, versatile and modular, Switch offers the freedom to control all home switches and electrical appliances, in an easy-to-use, affordable way for everyone, everywhere.

KEY FEATURES & BENEFITS

SwitchSmart works with Alexa, Google Home, and Siri.

Switch transforms homes into 'smart homes' for homeowners who need an affordable solution to manage their homes remotely, through a series of timers, creating automatic scenarios.

- Deters potential intruders who are attracted to homes that are left in the dark after hours.
- Coming home to a well-lit home after a late night out.
- Reduces electricity usage by allowing full control via the application on your phone, making it an energy saving system.
- Scenarios can be created either with a virtual switch or a physical button to create scenes such as "Good night" that is activated either by voice, physical switch or touch of an icon on the app.
- Unlimited timers can be programmed on any switch or master switch.

SEAMLESS INSTALLATION

Convert any light switch into a smart-switch in less than two minutes. Turning a typical home into a smart home! We ensure that you avoid messy rewiring, making your switch to home automation as simple and easy.

COMPLETE CONTROL

With Switch you can explore the world of high-tech functionality and accessibility at the touch of your mobile screen. Control connected devices and systems through a user-friendly interface.

MONITOR CONSUMPTION

Customising, trimming, and programming your energy use with Switch allows efficient and cost-effective energy use by adjusting or switching off unused Smart thermostats, appliances, and lighting systems.

EFFORTLESS AUTOMATION

Automate your home security system, structured wiring system as well as other home networks with the aim of controlling them remotely at your own pace, preference and budget.

AFFORDABLE VERSATILITY

Simple, versatile and modular, Switch offers the freedom to seamlessly connect and control home switches and electrical appliances with a communication hub in an easy-to-use, affordable way.

EASY CONNECTIVITY

Voice activation can be used with the Amazon Alexa, Google Homes, or Siri systems. Switch makes your life better, giving you more time, control, flexibility, and convenience to enjoy all of life's many adventures.

A person in a grey suit and white shirt is using a silver compass to draw on a blueprint. The image is overlaid with a white hexagonal geometric pattern. A dark grey banner on the right side contains the text "FOR DEVELOPERS".

FOR DEVELOPERS

MEETING PROPERTY BUYERS' EXPECTATIONS

Modern property development is all about automation and technology.

Gone are the days when Smart Home systems were too inaccessible, complex, or expensive to install.

Incorporating smart technology to packages offered in new property developments is no longer a luxury offered only to high-end clients. Property developers, home builders and architects are embracing the market need for smart home automation.

South African homeowners and home buyers are switching to smart solutions and it's time for you to do the same.

INTUITIVE, FLEXIBLE & AFFORDABLE

Reap the benefit from the competitive advantages of our smart home automation solution, while enjoying ongoing technical support and maintenance from our team of smart home automation specialists.

With the Switch solution, you can offer prospective buyers:

- The power to automate their home security system, structured wiring system as well as other home networks with the aim of controlling them remotely from any location.
- Complete control of their appliances, entertainment, lighting, and security systems through the user-friendly mobile application interface.
- The ability to customise, trim and programme energy use by switching off unused electrical facilities.

Why choose Switch as your preferred partner?

- Smart home automation is what new-age home buyers are looking for in the value-proposition offered in new property developments.
- You differentiate your value-offering from competitors in a unique and innovative way.
- Installation is easier than ever and affords you the opportunity to enjoy substantial returns.

AN ATTRACTION FOR MODERN HOMEBUYERS

As a property developer or architect, you have the potential to increase your profit margins by incorporating the Switch model into your building plans.

Modern home buyers expect the best value for money. With Switch, you can offer a cost-effective, easy-to-use, and simple-to-install system which they can control and expand at their own pace, preference, and budget.

The affordable smart home is now within reach and Switch is committed to delivering its unique solution to homes across South Africa.

FOR ELECTRICIANS

AN OPPORTUNITY FOR ELECTRICIANS & HOMEOWNERS

Smart home automation represents the most advanced sector of the internet of things, introducing new opportunities for electrical contracts to upsell.

Smart technology and the Internet of Things (IoT) is advancing the world of interconnectivity at an impressively rapid rate. This is especially true regarding smart homes and home automation.

This means that there is a growing opportunity for electrical contractors to sell, install, and maintain smart home automation systems.

As a result, electrical contractors are enjoying new streams of revenue that are generated from additional value that is offered to customers in the realm of smart home automation installations, maintenance, and support.

EXCEPTIONAL RETURNS & CONTINUOUS SUPPORT

Our partner programme offers exceptional returns while guaranteeing continued support and training.

Switch offers an IoT-enabled smart technology solution that electrical contractors can provide to their customers to empower them to improve energy consumption, enhance home security, and automate their home life for greater convenience and peace of mind.

With Switch, you're guaranteed to benefit from a simple and seamless installation process with unfaltering support in terms of maintenance and repairs from our team of official specialists, technicians, and partners.

BECOME AN OFFICIAL DISTRIBUTOR

Incorporate the switch smart home automation model into your value proposition. We'll train your electricians in the installation, maintenance, and repairs of our technology.

If you own or manage an electrical contracting business in South Africa, you can call on us to deliver an affordable and accessible smart home automation solution.

You can rely on us to share leading insight and expertise of our smart technology with the aim of empowering your own team of electricians, to help your business generate greater success in the world of smart home automation.
